no cure period). In the case of a default which cannot with diligence be remedied or cured, or the remedy or cure of which cannot be commenced, within the time periods set forth herein, the Redeveloper shall have such additional time as reasonably necessary to remedy or cure such default provided that the Redeveloper shall at all times act with diligence, and in good faith, to remedy or cure such default as soon as practicable. Upon such default and cure period, the City shall have the right to proceed against the Project Area, including any Improvements related thereto, pursuant to any and all applicable provisions of law.

SECTION 12.03 Remedies

In the event of a default of this Tax Agreement by any of the parties hereto or a dispute arising between the parties in reference to the terms and provisions as set forth herein, other than those items specifically included as Material Conditions herein, any party may apply to the Superior Court of New Jersey by an appropriate proceeding, to settle and resolve said dispute in such fashion as will tend to accomplish the purposes of the Acts. This right shall only apply to arrearages that are due and owing at the time, and the bringing of any action for payments in lieu of taxes or other charges, or for breach of covenant or the resort of any other remedy herein provided for the recovery of payments in lieu of taxes or other charges shall not be construed as a waiver of the right to proceed with an In Rem Foreclosure action consistent with the terms and provisions of the Tax Sale Law and this Tax Agreement. In addition to all of its other rights and remedies, in the event of a default of this Tax Agreement, the City may terminate this Tax Agreement and the tax exemption granted herein shall immediately cease and shall have no further force and effect and the Project Area, including any Improvements related thereto, shall thereafter

(the “Property”). All of the improvements that will be the subject of this tax abatement application will be maintained/landscaped in accordance with applicable requirements.

The metes and bounds descriptions of the Property are attached hereto as Exhibit A and set forth on the subdivision plan attached as Exhibit D.

2. Type of Project:

This project will consist of a dental office on the first floor with offices associated with the dental office on the second floor, 14-unit residential units consisting of 11 two bedroom units and three 3 bedroom units on the second through fourth floors and nineteen parking spaces to be located in two garage buildings (the “Project”).

The number, size, and anticipated rents are set forth in Exhibit B (income from tenant parking spaces are included in these numbers).

3. Type of Exemption/Abatement Requested:

Pursuant to N.J.S.A. 40A:21-1 et seq. and Section 10-1 of the City of Bayonne Ordinance, the Applicant seeks a five-year tax abatement to be implemented on a phased basis (and to be set forth in a Financial Agreement with the City), such abatement to commence on the first day of the first year following substantial completion and ending on the date that is one day prior to the fifth anniversary of the tax exemption commencement date. Based upon the computations set forth in Exhibit C, the Project will generate estimated tax payments on the proposed improvements as follows:

<table>

<tbody>
<tr>

<tr>
<td>Year 2</td>

</tr>
<tr>
<td>Year 5</td>
<td>$49,358</td>
</tr>
<tr>
<td>After abatement expiration</td>
<td>$61,698</td>
</tr>
</tbody>
</table>

The estimated real estate taxes for the Property are approximately $3,133.

4. Description of the Project:

The Applicant obtained approval from the City of Bayonne Planning Board to construct a building consisting of dental office on the first floor with offices associated with the dental office on the second floor, 14-unit residential units.
consisting of 11-two bedroom units and three 3-bedroom units on the second through fourth floors and nineteen parking spaces to be located in two parking garage. The Applicant will construct and maintain ownership interest in the Project.

For more detailed information regarding the Project, see Exhibit D.

5. Estimated Costs:

The Project’s estimated construction costs are $2,938,000, estimated costs for permits, connection and other fees are $130,000 and other estimated soft costs are $250,000. Additionally, architectural and engineering fees, surveyor fees and construction manager fees will be approximately $223,000.

A breakdown of estimated construction costs is set forth in Exhibit E.

6. Financing Structure:

The Applicant is pursuing construction and permanent financing for the Project and anticipates the commencement of the formal loan process with private banking institutions in the next few weeks.

7. Annual Gross Revenue and Expenses:

The Project Income and Expense Statement is attached hereto as Exhibit F.

8. Construction Schedule:

The construction of the Project commenced in or around August 2017 and is anticipated to be completed in August 2018. This construction schedule is subject to modification based upon the time required to obtain the necessary governmental approvals and permits from governmental agencies involved in the Project.

9. Estimated Jobs to be Created:

The Applicant projects that the Project will generate approximately 10 full time equivalent construction jobs during the term of construction. Additionally, the Project could generate employment opportunities for local service contractors for maintenance of the Project after construction.

10. Compliance with Redevelopment Plan and City Zoning Ordinance:

The Applicant certifies that the Project meets the requirements of the City Zoning Ordinance, as approved by Planning Board Resolution P-15-023 (adopted on January 12, 2016), which granted preliminary and final major site plan and bulk variance approval.

11. Disclosure Statement:
A Disclosure Statement listing the names and address of the members of the Applicant is attached hereto as part of Exhibit G.

12. Reasons for Approval/Benefits to the City:

Despite its desirable location, the Property remained unproductive for years. Although the Applicant obtained approval from the City of Bayonne Planning Board, the financing of the Project is still difficult, if not impossible, without real property tax relief. Without such relief, the already-thin profit margin disappears, rendering the Project unworkable.

The approval of the requested relief will create several benefits for the City. Not only will it create the jobs referenced in Section 9, above, it will also help to financially stabilize a Project that will revitalize underutilized property and continue the growth along the Avenue E corridor in the vicinity of the 22nd Street Light Rail Station. The Property will generate substantial tax revenue for the City upon termination of the abatement period. Further, the Project will attract residents who will boost the local economy and utilize the existing public transportation infrastructure located in the City. Finally, the Project’s success is anticipated to spur additional development in the City.
