**ROBERT KUBERT, *MAYOR***

**April 24, 2026**

**For immediate release:**

**Next Phase of Broadway Street-Paving Project to Start Tuesday, April 28**

Mayor Robert Kubert announced that the second phase of the Broadway paving project will begin on or about Tuesday, April 28. The paving contract was awarded last year to 4-CLEAN UP, a North Bergen-based company. Funding for the project was provided by the New Jersey Department of Transportation (NJDOT). Mayor Kubert said, "We would like to thank Governor Mikie Sherrill, former Governor Phil Murphy, our state legislators, and the NJDOT for supporting this important Broadway paving program."

Last year, the first phase of the paving project resurfaced uptown Broadway from the City Line down to 41<sup>st</sup> Street. This year, the second phase of the project will resurface Broadway from 41<sup>st</sup> Street down to 19<sup>th</sup> Street. The project generally consists of the resurfacing and reconstruction of Broadway including but not limited to Hot Mix Asphalt milling and/or pavement repairs, installation of new concrete curbs adjacent to the curb

ramps, sidewalk and curb ramps, installation of asphalt, storm/sanitary sewer structure improvements, and related work within the City of Bayonne.

Paving project work will take place on weekdays only, beginning at 7:00 a.m. and ending at 4:00 p.m. Relocation of parked vehicles in a scheduled work area will begin each day at 6:00 a.m.

The crews will mill and clear existing road surfaces before paving. According to the tentative schedule, the section of Broadway from 19<sup>th</sup> Street to 26<sup>th</sup> Street will be milled on Tuesday, April 28, and then paved on Thursday, April 30. The section of Broadway from 26<sup>th</sup> Street to 31<sup>st</sup> Street will be milled on Wednesday, April 29, and then paved on Thursday, April 30. The section of Broadway from 31<sup>st</sup> Street to 37<sup>th</sup> Street will be milled on Friday, May 1, and then paved on Monday, May 4. The section of Broadway from 37<sup>th</sup> Street to 41<sup>st</sup> Street will be milled on Tuesday, May 5, and then paved on Wednesday, May 6.

As the paving project gets ready to start, signs will be posted at least 48 hours in advance to advise residents and motorists of the impact the work will have on parking and driving on the affected streets.

The paving schedule shown above is tentative and subject to change, due to weather and other unforeseeable factors.
